

## Test Task in Metrabit Team

1. Create simple to-do list according to design with using only vanilla JS  
<https://www.figma.com/file/SDZYNyH0ZBpEMED7i0Fc4i/FE-Metrabit-Test?node-id=0%3A1>
2. Layout should be correct in each display width
3. After reboot page, accepted data should be saved
4. It's necessary to show statement, when there aren't any tasks
5. Use standart validation rules for save task
6. Please, deploy your project on github pages to your account

\* Will be a plus if will be used SCSS or any another preprocessor for styles

\*\* Will be a plus if will be used any API for save your data
